

BALANCING AUTHORITY OF NORTHERN CALIFORNIA

RELIABILITY • COLLABORATION • SUSTAINABILITY

BANC Commissioner Profile:

Dan Beans **Electric Utility Director** **City of Roseville**

Dan Beans was named Electric Utility Director in 2022. The City of Roseville is unique to the Sacramento region in that it owns and operates its own electric utility.

Mr. Beans oversees a \$165 million budget and over 190 employees who are responsible for generation and distribution of electricity to about 65,000 residential and business customers. Roseville Electric operates two power plants, including the Roseville Energy Park, a 160 megawatt natural gas, combined cycle power plant.

Prior to becoming Roseville Electric's Director, Mr. Beans was the Electric Utility Director for the City of Redding. He also previously served as Assistant Utility Director responsible for the Utility Operations Division, and prior to that time, he served as an Electrical Engineer, Engineering Manager, and Assistant Director over Resource Planning.

Mr. Beans is a licensed Professional Electrical Engineer with the State of California. He began his career in public power over 17 years ago, after spending more than 12 years in the private sector, where he performed electrical engineering for NASA, the City of Portland, and numerous other organizations through a consulting engineering firm.

Mr. Beans holds a Bachelor of Science in Engineering Physics from Point Loma Nazarene University and a Master of Public Administration with an emphasis in Public Finance from National University.
