BANC Commissioner Profile:

Barry Tippin
Electric Director,
Redding Electric Utility (REU)

Redding Electric Utility

Barry Tippin became the Electric Director for the Redding Electric Utility (REU) in January of 2012. REU has a budget of approximately \$150 Million and maintains and operates a vertically integrated utility spanning sixty square miles. REU also provides customer service, billing and collection services for the other 4 utilities ran by the City of Redding.

Barry also serves as the Assistant City Manager for the City and has held that position since 2008. Since joining the City in 2004 Barry has also held the positions of City Engineer, Director of Transportation and Engineering, Director of Municipal Utilities, and Director of Personnel.

Prior to joining the City of Redding Barry worked in the transportation, structural engineering and general civil engineering fields. Barry graduated from California State University - Chico and is a licensed civil engineer.
